

November , 2014

His Excellency Barack H. Obama
President
The United States of America

Letter of Protest

I encountered the news that you enforced the new type of nuclear test to investigate the performance of nuclear weapons from this past September to October at Sandia National Laboratories in New Mexico.

Our City declared “Nuclear-free and Peace City” in 1982. Since then, we have conveyed the horror of nuclear weapons and sufferings of atomic bomb victims to everybody in the world. Also, we have desired the abolishment of nuclear weapons and eternal peace with people of the world who love peace, to prevent further tragedies that have occurred in Hiroshima and Nagasaki.

After a nuclear test is conducted in 2010 for the first time in under your political power, it already becomes the 12th nuclear test in this time. I regard this test as having intent to possess nuclear weapons once again.

Your actions cause the atomic bomb survivors and the citizens of Narashino City desiring for peace utter disappointment and run counter to the moves toward nuclear-weapons-free world, and I cannot accept them and am extremely regrettable. I think Nuclear powers including your country have the responsibility to contribute to abolish the nuclear weapons to make the world peace and stability.

On behalf of the citizens of Narashino City, I strongly protest against this test and request to penetrate the thinking of the atomic bomb survivors and to take a leadership role in the global abolishment of nuclear weapons and the realization of eternal peace.

Taisuke Miyamoto
Mayor
The City of Narashino
